

EMULE MODS NEWS - 24.03.13

Andrey, Sunday 24 March 2013 - 15:50:00

eMule 0.50a beba 2.70 Released

eMule 0.50a beba 2.70

Changelog;

- added: additional fake check from the search list [WiZaRd/NetFinity]
- added: NeoLoader detection [David Xanatos]

- improved: added recognition of Ogg Theora (.ogv) and TAK (.tak) media files [Tuxman]
- improved: added recognition of some WordPerfect Office document files [Tuxman]
- improved: fixed unfair treatment of clients requesting more than 1 file [eklmn/WiZaRd]
- improved: improved Visual Studio 2010 compatibility [Tuxman/WiZaRd]
- improved: prevent failed UL sessions due to deleted/missing shared files [WiZaRd]
- improved: removed some debug-related functions in release builds [YumeYao]

- fix (o): a double click on the USS status bar item opened the messages window instead of the Tweaks prefs page [Eulero]

- changed: finally fixed the URL in the logo image and did some decent redesign [Tuxman]
- changed: improved the Slot Focus upload list context menu item (clearer display of "enabled"/"disabled") [Tuxman]
- changed: randomly changed something and stuff [Tuxman]
- changed: removed the Slot Focus prefs item (redundant) [Tuxman]
- changed: removed the option to disable Windows 7+ taskbar integration [Tuxman]
- changed: Winsock2 support can not be disabled anymore (removed checkbox) [Tuxman]
- * fallback to Winsock1 has been the default behavior anyway

- removed: support for low color desktops [WiZaRd]
- * people using VS2010-binary compatible systems should not have them anymore. :-)

- updated: Crypto++ v5.6.2 [Tuxman]
- updated: libpng v1.6.0 [Tuxman/WiZaRd]
- updated: miniupnpilib v1.8 [Tuxman]
- * including fallback mode for Windows XP [WiZaRd]
