eMule 0.50a Scarangel 4.2

Changelog:

based on eMule 0.50a Xtreme 8.1 compiled with vs2010 SP1

Changed: Pause UBT when moving down slots in upload [Stulle] - Stulle

Changed: Schedule blocking clients for removal [Stulle] - Stulle

Changed: Schedule clients for moving down [Stulle] - Stulle

Changed: Show ModID in systray dialog sidebar [Stulle] - Stulle

Changed: Display ratio activation in WebInterface [Stulle] - Stulle

Fixed: Potential NULL-pointer bugs in Upload Bandwidth Throttler [Stulle] - Stulle

Note: The schedule changes will delay removal of blocking or moving down clients so the action will be done when going through the uploading sockets the next time to avoid exceptions due to changes in the upload list done by another thread while going through the sockets.
